ABOUT ME

I am a Web Developer with a degree in Information and Communication Technology from the University of Gondar. I work with business data, websites, and web applications. I enjoy learning new tools, working with others, and building systems that make daily work easier.

SKILLS

Web: HTML, CSS, JavaScript, React, Next.js, Node.js, Express, REST APIs
Data and tools: MongoDB, PostgreSQL, MySQL basics, Git, GitHub, Postman, Replit
Other: Python, Selenium, spreadsheets, testing, and workflow automation

WORK EXPERIENCE

Yosal PLC | Data Operations & Web Support | June 2024 - Present

- Work with business data, spreadsheets, and website-related tasks.
- Help improve daily work processes and test internal applications.
- Helped build an Order Issue Management System and a Rental Management System using Replit and AI-assisted tools.

PROJECTS

Task Management System | React, Node.js, Express, MongoDB

- Built an AI-assisted task app with login, user roles, task tracking, approvals, and notifications.

Inventory Management System | Next.js | Team Project

- Worked with a team on a system for managing products, stock, and inventory reports.

Order Issue Management System | Internal Project

- Helped create a tool to record missing or damaged items and follow up on vendor issues.

Rental Management System | Internal Project

- Helped create a system for rental records, payment tracking, and reports.

Ruth Store | React and JavaScript

- Worked on a responsive online store interface for browsing products.

YouTube Video Automation | Python

- Created a workflow to prepare short clips from longer videos.

EDUCATION

Bachelor's Degree in Information and Communication Technology (ICT) - University of Gondar
